

Xsight ARCWize

We Make GRF Happen. On Time. Simple

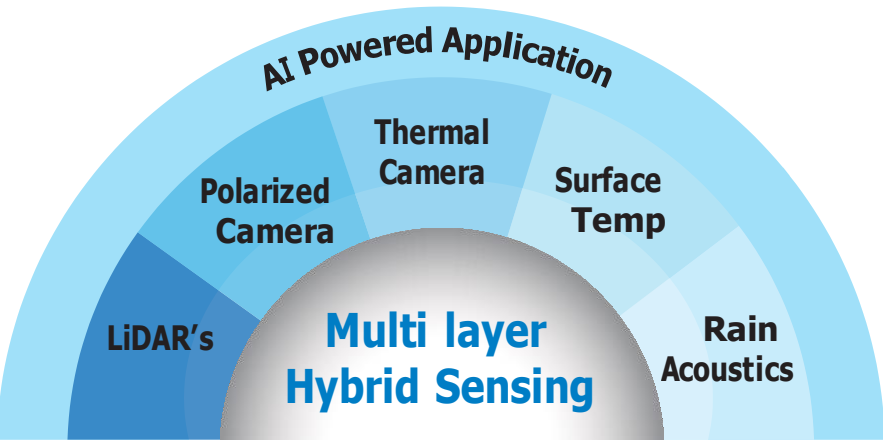

Xsight ARCWize –Automated Runway Conditions, AI powered solution for 24/7 automated assessment and reporting of runway surface conditions

ARCWize automates your process to ensure compliance with the new GRF, guaranteeing a peace of mind.

Affordable Multi-Layer Sensing Solution Powered by Xsight's AI

- >> Real-time remote & continuous accurate measurement & assessment
- >> Auto classification of contaminants' type, depth and coverage
 - >> Snow variances
 - >> Ice
 - >> Ice formation & dew point
 - >> Rain water
- >> Alerts when levels exceed GRF or pre-defined thresholds
- >> Automatically generates GRF RWYCC and SNOWTAM/NOTAM reports
- >> Clear visualization of the runway & its contaminants

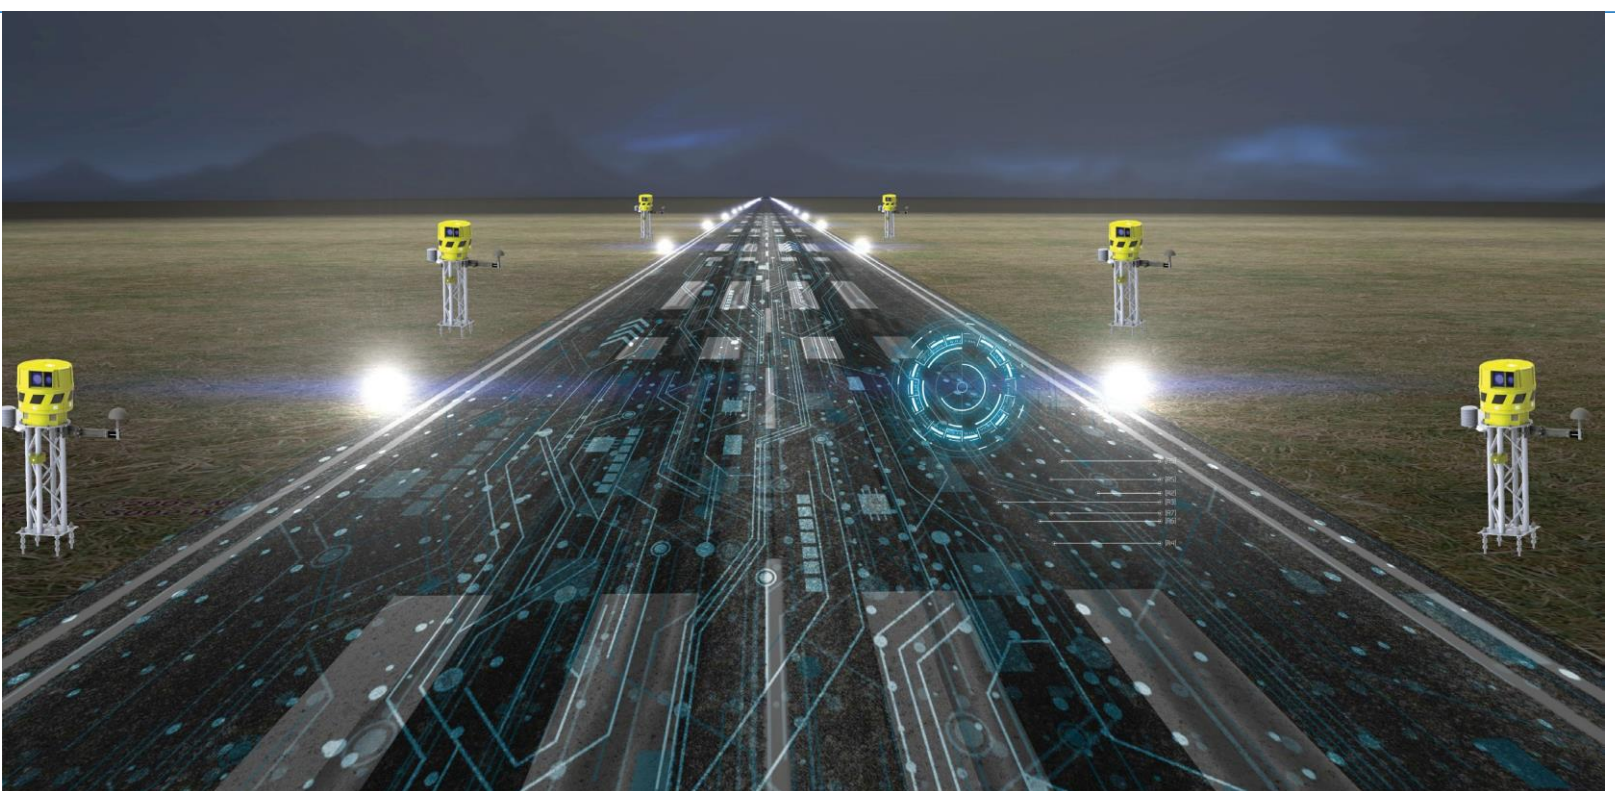

More than GRF: Visualize & Digitize Runway Surface

- >> Control the runway - see more, know more. Always!
- >> Increase runway availability - remote & continuous sensing minimize runway interruptions
- >> Lowers operational workload - automating monitoring & reporting processes and smart pre-planning of contaminants removal
- >> Digitize surface data - connects with airport management systems and serves all stakeholders: Airport operations, ATS, air crew, dispatchers, regulatory orgs (ICAO, EASA), etc.

Control the Runway 24/7, NO Surprises!

Xsight Systems is the leading provider of AI powered runway sensing solutions. For more than 15 years, and with over 1,500 sensors deployed on runways worldwide, Xsight is trusted by leading airports to provide an automatic, timely and continuous supervision minimizing risk and providing safer and more efficient runway operations. www.xsightsys.com
